

Campus Update Summer 2017

Employee of the Year

Ten Professional and Support Staff members were recognized as the 2016-17 UC San Diego Exemplary Staff Employee of the Year Award recipients. The Exemplary Staff Employee of the Year Review Panel, consisting of representatives from each vice chancellor area, the UC San Diego Health System and the Chancellor's Office, evaluated all eligible nominations submitted by members of the campus community. The announcement invited nominations of Professional and Support Staff who have demonstrated exemplary service and made other significant contributions to the UC San Diego and/or San Diego communities in accordance with program guidelines. <http://blink.ucsd.edu/go/eoyrecipients>

Annual Board Election

We held the annual elections for the staff board, with 29 staff members running for 11 positions on the board. The board for 2017-2018 year represents a wide variety of areas across campus and diverse range of experiences. Several members not selected have requested to participate in other ways.

Performance Management

UC San Diego is shifting to new performance appraisal system. The new system was created through a collaborative process with a wide range of HR representation and an invitation for three staff members to participate in the committee. The new system has been approved by senior leadership and has been shared with campus through over a dozen town halls to get feedback and input from campus at large. This new system will be implemented by May 2018, with supervisor trainings starting August 2017.
