

## Campus Update Spring 2017

### **Staff Mixer**

On January 26, 2017, approximately 45 staff members came together to connect across departments and years of service at mixer hosted by Career Connection in collaboration with the Staff Association. This may become a tradition that allows for networking and builds stronger bonds of collegiately on campus among staff.

### **Committee Launch**

In order to serve the large population of staff here at UC San Diego and to support the desire for leadership opportunities we are launching 10 committees each with leadership roles and objectives to support the staff association. Not all are new committees, the process of opening them up to staff members not on the board to get engaged around issues they might be interested in is shift.

### **Principles of Community**

The Vice Chancellor of Equity Diversity and Inclusion has opened a call for proposals that support the UC San Diego Principles of Community. The staff association leadership has sent request and begun a work group to create a proposal that could support the visibility and value of staff on campus. The grants are open to all members at UC San Diego and range from \$2,500 - \$10,000 in value.
