

Lawrence Berkeley National Laboratory

CUCSA Update

March 2006

The Berkeley Lab Employee Forum held its second meeting on Thursday, February 2 in order to introduce the goals and members of the group, and to invite members of the Lab community to participate in future activities. During the meeting several topics of interest to Lab employees were discussed including proposed tuition waivers for UC employees, and the application for Lab delegates to the Council of University of California Staff Assemblies (CUCSA) [<http://www.ucop.edu/cucsa/>].

In addition, acting EH&S Division Director Harold Hatayama was on hand to talk and hear about safety issues around the Lab. Matt Rice of Facilities provided a personal look at safety as he described his involvement in the Workers Observing Workers (WOW) program.

For more information about the Forum and CUCSA, contact Carla Garbis or Liz Moxon at cucsa@lbl.gov. Applications and information about becoming a Berkeley Lab delegate to CUCSA are available at <http://www.lbl.gov/Workplace/Ops/cucsa.html>. The deadline for applications is March 15.
