

## Campus Update, September 2011

### **June 2011: Staff Advisors Penny Herbert and Julianne Martinez Visited the LBNL Oakland Scientific Facility**

Staff Advisors visited the Lab Oakland Scientific Facility along with UCB and UCOP CUCSA delegates.

Questions and topics such as health insurance, ERIT Program Update ([http://atyourservice.ucop.edu/employees/health\\_welfare/medical/hcf.html](http://atyourservice.ucop.edu/employees/health_welfare/medical/hcf.html)) as well as LBNL CUCSA advocacy were brought up in the meeting.

At the end of the meeting, the Staff Advisors and the CUCSA contingent had an opportunity to tour NERSC Center Machine Room including one of the World's Top 10 fastest computers Hopper Cray XE6 named after Admiral Grace Hopper.

### **June 2011: Berkeley CUCSA Delegate and Staff Advisor Get Together**

Both current and former CUCSA delegates and Staff Advisors to the Regents from UC Berkeley and the Lawrence Berkeley Lab met for lunch. It was a great opportunity to connect with old friends and make some new connections.

This is one of the ways that former delegates will stay connected and hopefully keep them abreast of the current state of CUCSA and at the same time provide opportunity for the former delegates to be involved in what CUCSA is currently doing.

### **July 2011: Lab's 2011 Open House**

With last year's success and feedback received from the visitors for the Lab's Open House, the Lab Director Alivisatos is very excited to announce that the lab will host an Open House this year on Saturday, Oct. 15.

The Open House will showcase what LBNL do, how LBNL do it, and how our research benefits our neighbors and the world at large. Building good relations with our local community is key to the Lab's success, and this event is an important step toward achieving that goal.

A coordinating group of scientists and staff will participate to develop exhibits showcasing their research or operational areas.

### **August 2011: Weight Watchers Session for Staff**

The Lab hosts weekly onsite Weight Watchers meetings to help staff reach their weight goals. Representatives were in the cafeteria on Tuesday, August 8 from 11:30 to 12:30 p.m. to answer questions about the program.
