

UCOP Campus Update March 2007

UCOPA Quarterly Newsletter

At the suggestion of one of our staff members at OP, UCOPA will be rolling out a quarterly newsletter. The purpose of the newsletter is to provide a single source for the events happening at OP and to provide staff with important updates in a user friendly format. We have completed the design, drafted the first edition and hope to publish in mid-March.

This newsletter will be available in electronic form only and will be published via email to all OP staff.
