Santa Cruz Update September 1, 2008

Staff and Faculty show support for scientific researchers

More than 200 community and campus members gathered at the base of campus on Monday (8/4/08) to show support for scientific research at the university and denounce two recent firebombings targeting UCSC researchers. City leaders and police have announced a \$50,000 reward in the case.

UCSC reaches landmark agreement with City and County of Santa Cruz

UCSC and others have reached a historic agreement that will end litigation related to the Long Range Development Plan. It allows the university to meet its mission of teaching, research, and public service for the State of California and includes mutually enforceable measures to address traffic impacts, conserve water, and provide housing for new students.
